EDUCATION

B.Tech. in Computer Science and Engineering (AIML)

2022 – 2026

VNR Vignana Jyothi Institute of Engineering and Technology

CGPA: 8.46

Intermediate

2020 – 2022

Sri Chaitanya Junior College, Telangana

Percentage: 89.6

EXPERIENCE

Data Science Intern - IBM SkillsBuild

Feb 2024 – Mar 2024

- Analyzed large-scale datasets using R programming to extract insights that improve operational efficiency.
- Created data analysis reports and dashboards to support stakeholders in making data-driven decisions.

PROJECTS

Inventory Optimization System — Double DQN, FastAPI, RabbitMQ, PostgreSQL, Docker, React.js

- Developed a production-grade inventory platform using Double DQN RL agents to optimize multi-SKU supply chains, outperforming (s,S) baselines and nearing 90% oracle policy results.
- Architected a FastAPI/RabbitMQ microservices backend with WebSockets for real-time telemetry; containerized with Docker and deployed via GitHub Actions to DigitalOcean.
- Co-authored and submitted a **Literature survey** and an **Implementation paper** for academic publication.

OptiDeliver - Delivery Optimization System — React.js, Flask, MongoDB, Twilio, Random Forest, K-Means++

- Developed an AI-powered logistics solution for India Post that optimizes delivery routes and time slots for daily shipments, designed to reduce delivery times and fuel consumption.
- Integrated Twilio API for real-time SMS notifications daily and built dynamic delivery scheduling system with sender-customer preference integration.
- **Research Paper:** An AI-driven System to Modernise Last-Mile Delivery Systems - accepted for Oral Presentation at IGNITE-2026 (IEEE Conference), KJ College of Engineering.

Smart Event Management Platform — Spring Boot, React.js, TypeScript, MySQL, Redis, Docker

- Developed comprehensive event management system with user authentication, real-time RSVP tracking, and live capacity updates, featuring role-based access control and automated event status management.
- Implemented scalable architecture with Redis caching, Docker containerization, and WebSocket real-time updates, demonstrating full-stack development with proper database relationships and API design.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Oracle Cloud Infrastructure 2025 Certified Data Science Professional
- Software Project Management Certification from NPTEL
- Smart Coder Certification from Smart Interviews
- Supervised Machine Learning: Regression and Classification Certification from Coursera
- Tableau Certification from Internshala

SKILLS

Programming Languages

Python, Java, C, C++, JavaScript, TypeScript, SQL, R

Web Technologies

React.js, Node.js, Express.js, Flask, FastAPI, HTML, CSS, Bootstrap

Databases

MySQL, SQLite, MongoDB, PostgreSQL

Data Visualization

Tableau, Microsoft Power BI

Cloud & DevOps

AWS, Docker, Git, GitHub

AI/ML

YOLOv8, OpenCV, TensorFlow, scikit-learn, Pandas, NumPy

EXTRA-CURRICULAR ACTIVITIES

- Led Krithoathon 2.0 & 3.0 (nationwide 24-Hr Hackathon with 1000+ participants) and Krithomedh Coding Contest (200+ participants) as an active member of VNRVJIET's AIML & IoT Student Community.
- Spearheaded NSS VNRVJIET blood drive collecting 1000+ units and the distribution of 500+ seed balls.

CO-CURRICULAR & ACHIEVEMENTS

- **Grand Finalist of Smart India Hackathon 2025 & 2024** - Ranked among the top 5 teams Nationwide.
- **Winner of GDGC Solution Challenge 2025** - Developed SportAI, using RAG, ML, OpenCV and Flutter.
- **Consolation Prize in Paper Presentation** at Convergence 2k25, VNRVJIET.
- **2nd Prize in Project Contest** at Convergence 2k25, VNRVJIET.
